

## Health and bodycare

### Task 1: monologue

The illustration shows a young boy with orange hair and glasses, wearing a green shirt and blue pants, sitting on a white stool. He has a nervous expression with sweat drops on his forehead. Surrounding him are four cards with different phobias: a lightning bolt and an airplane, a red card with black bats, a yellow card with a green snake, and an orange card with many small black insects.

You're talking about phobias in your English class. In about 2 minutes, tell your classmate about the phobias that you, your relatives or friends have and explain what you/they can do to get rid of them. You have 2 minutes to prepare your ideas.
